

Virtual Pool Care

User Manual

HOW TO REGISTER ON THE PLATFORM?

1. Go to www.virtualpoolcare.io and follow the procedure.

The screenshot shows the registration page for Virtual Pool Care. At the top is the logo, which consists of a stylized blue 'i' icon followed by the text 'VIRTUAL POOL CARE'. Below the logo, the text reads: 'Welcome to Virtual Pool Care, the Blue Connect and Fluidra web platform. To create your account, please enter a valid e-mail address. You will receive the procedure to follow.' There are two input fields: 'Email' and 'Password'. Below the 'Password' field is a checkbox with the text 'I've read and accepted the general terms'. A blue 'Register' button is positioned below the form. At the bottom of the page, there is a link that says 'Already registered? Log in'.

The screenshot shows a confirmation page with the Virtual Pool Care logo at the top. A large blue box in the center contains the text: 'Thank you We have sent you an email. To continue, please have a look at it.'

2. You will receive an email to confirm your registration. Then, complete the form to finalize your registration.

The screenshot shows a form titled 'Your account is created.' with the instruction: 'Please complete this form in order to complete your registration.' The form is divided into two sections: 'Personal information' and 'Information about your company'. Under 'Personal information', there are input fields for 'First name', 'Last name', and 'Phone number'. Under 'Information about your company', there are input fields for 'Name' and 'VAT number'. There are also two dropdown menus: 'Company size (number of people)' with '1' selected, and 'Number of swimming pools installed per year' with '1-5' selected. A blue 'Complete registration' button is at the bottom of the form.

3. Add your customers' pools in «Administration» using the serial number or the key of the Blue.

Your addition request automatically sends an email to your customer to ask his permission to share his data with you.

As soon as he accepts, you have access to his pool's data in «Pool» or «Map» by clicking on the name of the pool.

Add swimming pool

Enter the Blue Connect activation Key or its SN:

The Blue Connect activation key is an alphanumeric code of 8 characters. It can be found on the sticker at the back side of the Quick Start Guide.

HOW TO USE THE PLATFORM?

The platform is divided into 3 categories:

Pool: Visualize the pools of your customers and the general state of the pool.

Map: Visualize the pools of your customers on a map.

Administration: Add your customers' pools with the serial number or the key of Blue.

A little more information on the «Pool» tab:

- In the «Pool» tab, you will find all the customers' pools you follow through Blue Connect.
You can choose a «list» or «pellet» view with the adjacent icons.

The colors represent the status of the swimming pool (green = good / orange = attention / black = not active)

In the blink of an eye, you can already know the overall condition of the pool, the name of the pool, the name of the customer and the location of the pool.

- You can click on one of the pools to have more information. You then have access to the dashboard of the pool of a particular customer.

- The dashboard of a swimming pool contains several tables:

1. The quick view on the state of the pool and the Blue with its name, its status (green = good / orange = attention / black = not active), the problem(s) detected, the time of the last measure was taken and the key of the Blue (see opposite).

2. The information of your customer and the location of the pool.

Customer	
First name	Jean
Last name	Dupont
Email	jeandupont@hello.com

UV disinfection	No Data
Equipments	
Protection	None
Filtration	Sand
Cleaning	Hydraulic
Heating	None

4. Water values

5. Data history:

- By clicking on the name of one (or more) parameter(s) at the top of the graph, you remove it (them) from the graph so you can isolate a parameter (or more) to analyze it (them) more precisely. Then click again on the name of the parameter to make it reappear.

- You can change the time given by the graph (day, week, month) and navigate through time with the arrows.

- You can export the values to a CSV file.
